

An invitation to discuss the future of Salisbury Square

It is ten years since the Old Hatfield charrette. Some things have changed, but our commitment to deliver the regeneration of Salisbury Square has not.

Many of the proposals from the 2008 charrette are now complete: **Hatfield Station, Arm and Sword Lane, Dunhams Mews, Church Lane and George's Gate** have all been improved significantly. Additionally, **York House** has been renovated, and will be occupied by its first tenants soon.

It is, however, a source of disappointment for Gascoyne that the redevelopment of Salisbury Square is yet to begin. **Changing circumstances and rising costs** have forced us to reassess the scheme. It is for this reason that we are **returning the issue to the community of Old Hatfield**, to seek fresh **consensus** on the path forward.

It is our intention to consider a simplified scheme, which stays true to the spirit of the original charrette. Subject to a consensus forming, we will **rapidly pursue planning permission** and commence work as soon as possible.

Above: The successful redevelopment of Hatfield Station.

Below: The original proposal for Salisbury Square.

We would appreciate your views on the proposals.
Please join us to have your say.
